

IF YOU'RE **PREGNANT**, **FLU** CAN BE MORE SERIOUS THAN YOU THINK...

Catching flu during pregnancy could lead to serious complications for you and your baby. Vaccination can help: prevent flu-related complications; reduce the risk of premature or low-weight birth; give your baby protection against flu during the first few months after they are born.

Don't underestimate the risks of FLU. Book your jab today.

Reporting of side effects. If you get any side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in the package leaflet. You can also report side effects directly via the Yellow Card Scheme at: www.mhra.gov.uk/yellowcard. By reporting side effects you can help provide more information on the safety of this medicine.
